Re: Proposed Modifications to Groundwater Monitoring Plan  
North Wake Unlined Landfill, Permit #92-09

Dear Mr. Beal:

The Solid Waste Section has reviewed the *June 3, 2008 Proposed Modifications to Groundwater Monitoring Plan* submitted on behalf of Wake County by CDM for the North Wake Unlined Landfill. The proposed modifications include abandonment of monitoring well MW-27 in accordance with 15A NCAC 2C because the monitoring well is damaged; installation of a nested groundwater monitoring well pair triangulated with MW-9 and MW-6/6D within a temporary easement; and collect surface water samples upgradient and downgradient of Abbot's Creek near MW-9 and the Mallinckrodt property. The new monitoring wells will be sampled for Appendix I VOC and Metals, and Appendix II parameters detected in MW-9. The new monitoring wells will also be surveyed, and the water quality monitoring plan will be updated. As a result, the modifications are approved as described.

Please call me at (919) 508-8500 if you have any questions or concerns regarding this letter.

Sincerely,

Jaclynne Drummond  
Hydrogeologist  
Environmental Compliance  
Solid Waste Section
